

BibTeX

User Manual

Author: Jakub Hutny

1. Running the application

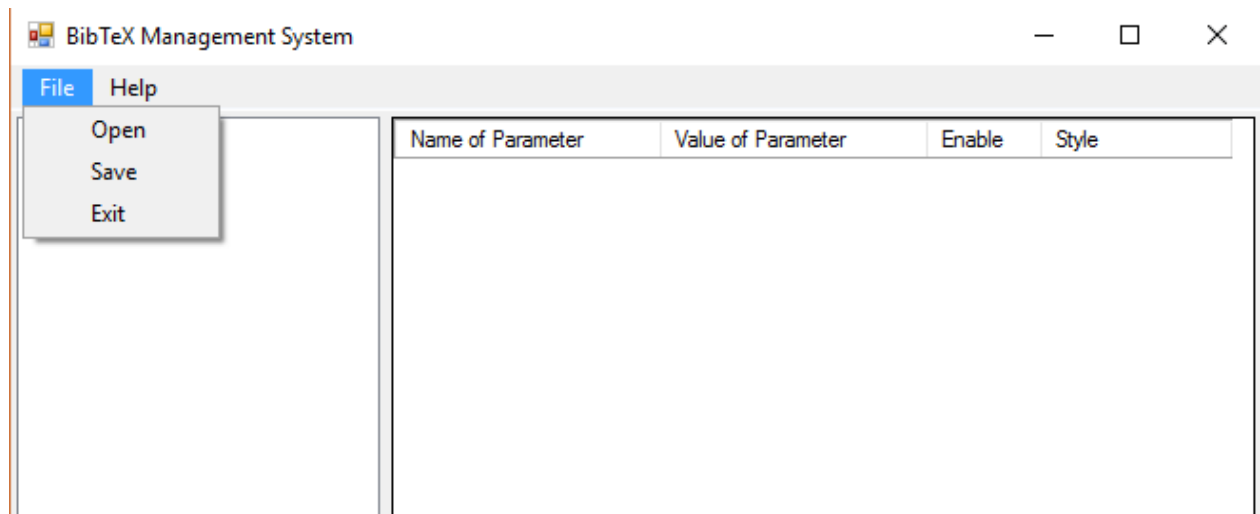

When user runs program by clicking 'bibtex-management-system' executable file two times, the following view will be displayed:

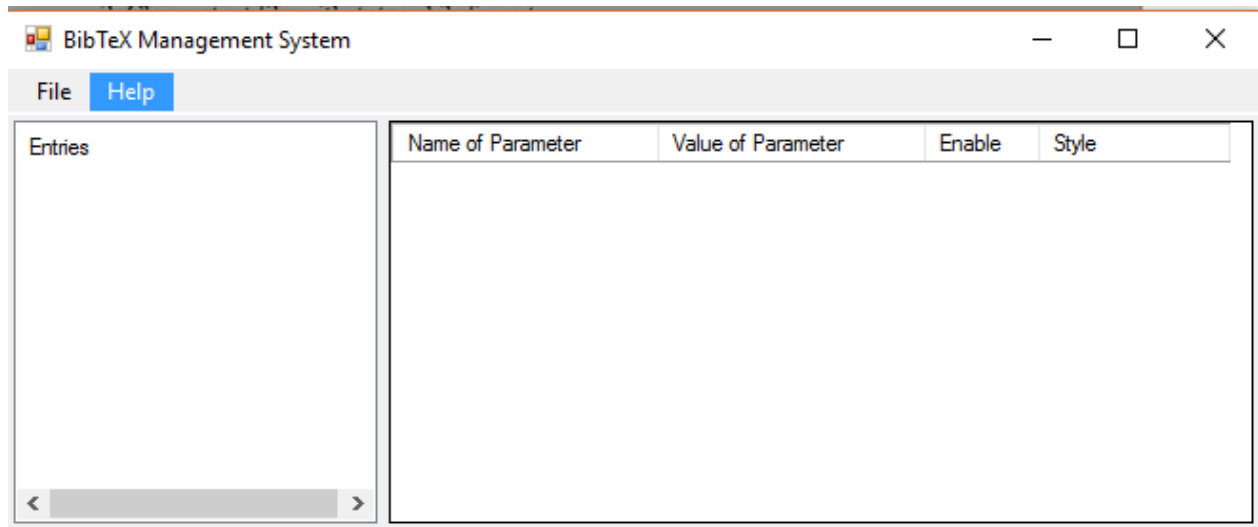

User can choose two options from menu: 'File' and 'Help'.

2. File menu

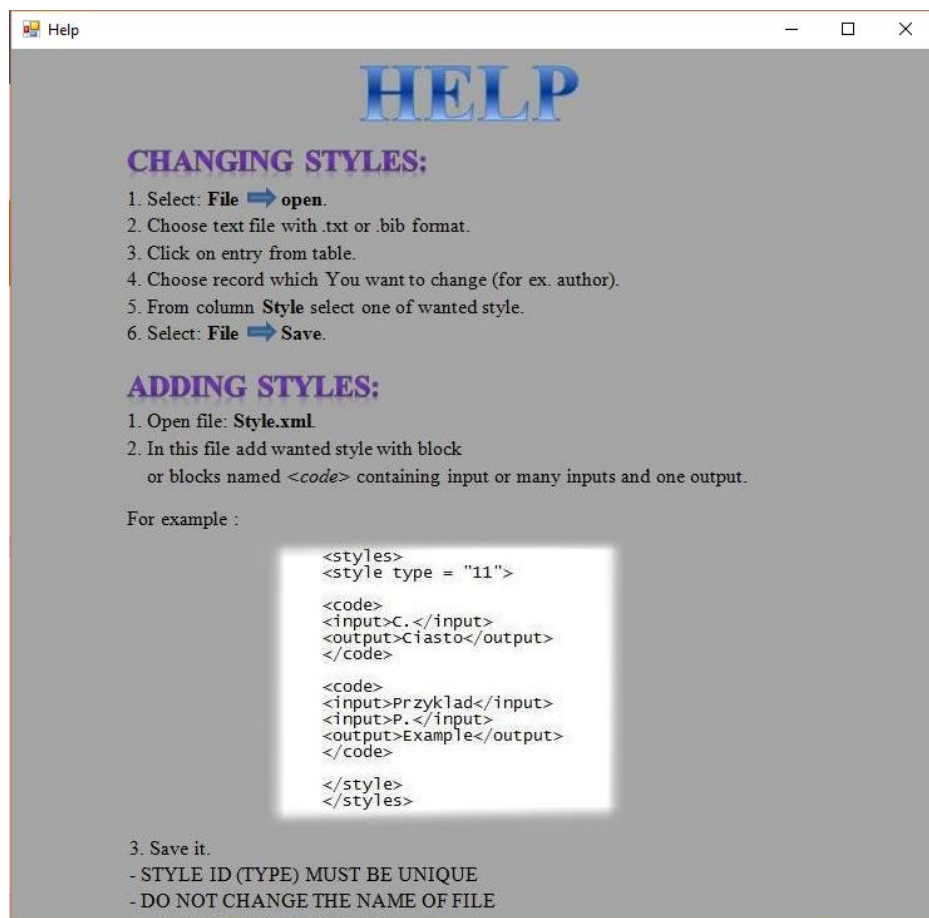

'File' provides three actions: 'Open', 'Save' and 'Exit'. 'Open' allows user to choose performed .bib file containing specific Entries. 'Save' button is responsible for saving the data in the .bib file. 'Exit' closes the application.

3. Help menu

When user clicks 'Help' from menu panel, following window will be open:

It provides instructions for changing and adding styles.
